Green Events Code of Practice Pilot

19. Will you have a plan with how to protect the surrounding area and the wildlife *
within it, including measures to regenerate and enhance the natural
environments? E.g. protecting trees, bats, wildlife, water areas

- Yes we will have a plan/ will be working with parks
- No there will not be a plan
- N/A - not applicable due to the site we are using

IMPROVE YOUR SUSTAINABILITY RATING

SHORT-TERM AND LONG-TERM WAYS

NEED TO IMPROVE

If you got a need to improve rating for sustainability, this is the lowest rating.

Some things you can do to improve in this section are introducing a written sustainability policy as a minimum start point.

If you feel you want to improve in other ways look at the other ratings and the improvement recommendations.

YOU SCORED BRONZE

If you got a Bronze rating for your sustainability section, you need to consider making your sustainability policy bigger, covering more aspects we ask about.

This doesn't necessarily mean covering all the aspects that we ask for at this stage, but simply covering something else such as how to protect the surrounding area and the wildlife within it.

YOU SCORED SILVER

If you got a Silver rating for your sustainability section, there are some areas in which you need to improve on.

Consider making your sustainability policies more in depth, covering most/ all aspects asked.

For example how to protect the surrounding area and the wildlife within it and how you would deal with hazardous spillages.

YOU SCORED GOLD

If you got a Gold rating for your sustainability section, this means you did all except potentially one aspect.

Whether this was putting no or partially on one of the answers, go back and see whether you could turn it now into a yes using the resources and help provided.

For example, on Q. 21 and Q.22 see if you can turn these to a yes.

YOU SCORED PLATINUM

If you got a platinum rating for sustainability, you scored all possible marks in this section.

For being at the top of this rating table for sustainability, we encourage you to keep innovating and improving to keep leading the way!

Keep doing what you're doing!
